

Create Service Credentials

The screenshot shows the IBM Cloud console interface. The left sidebar has a 'Manage' section with 'Service credentials' selected. The main content area is titled 'Service credentials' and includes a description: 'You can generate a new set of credentials for cases where you want to manually connect an app or external consumer to an IBM Cloud service. [Learn more](#)'. Below this is a search bar and a 'New credential' button. A table lists the credentials, with one entry 'Service_Credential-1' created on '2022-11-17 7:34 PM'. The details for this credential are displayed in a code block, showing a JSON object with fields like 'apikey', 'host', 'iam_apikey_description', 'iam_apikey_name', 'iam_role_crn', 'iam_serviceid_crn', 'ServiceId', 'url', and 'username'.
